MEDITE tricoya

**Private House**  
Bagshot, England

“

“We were looking for a façade product that suited the contemporary style of our project, complemented the natural timber, looked good and was easy to work with and install. SAM Trimax ticked all the boxes. We were delighted with the final result.”

”

E-Project Chartered Architects designed a contemporary dwelling for a client in Bagshot and needed to source an external grade product that would complement the other materials used on the project.

The client wanted a product that was easy to work with and install. SAM Trimax is lightweight and easy to fix and was therefore the perfect solution.

The project builder provided the panel requirements and SAM cut the boards to size and supplied them fully finished in RAL 9011.

Housing Development  
Cultra, Northern Ireland

“

We were provided with a good design and fitting instructions service and the site operatives were really pleased with the ease of fitting.

”

Des Ewing Architects designed a luxury housing development in Cultra, Northern Ireland for the Lagan Group.

There were over 30 unique private dwellings built in an elegant and modern style. SAM manufactured a bespoke fully finished cladding profile, fascia, soffit and decorative bargeboard.

# Popular colours.

SAM Trimax is available fully finished in any RAL colour option and comes with a paint warranty of up to 10 years. All fully finished cladding and facade profiles are supplied with a brushed texture as standard.
